
Implementation Plan to address Bacteria and Benthic Impairments in Mountain Run, Muddy Run and the Lower Hazel River

Help Develop a
Water Quality
Improvement Plan

Work to remove
bacteria and other
pollutants from our
streams

Improve water
quality for
swimming, fishing
and other recreation

WEDNESDAY OCT 28, 2020

Virtual COMMUNITY MEETING

Prevent disease and
infection from
polluted waters

Calling all Mountain Run, Muddy Run and Lower Hazel River Watershed Residents:

Join the Virginia Department of Environmental Quality and partners as they work to improve water quality in the following Project Area streams: Flat Branch, Indian Run, the (lower) Hazel River, Jonas Run, Mountain Run, Mountain Run Reservoir, Muddy Run, an Unnamed Tributary to Jonas Run, and Waterford Run. Input from local landowners and residents is needed to develop successful and impactful strategies.

PLEASE JOIN US!
