FREE WEBINAR SERIES

INTRO TO MANAGED GRAZING: Simple Steps to Smarter Pasture Management

Managed grazing isn't an "all or nothing" approach. Join us as we dive into how this adaptive practice can best fit your operation and how to reap the benefits it can provide!

- 4/14** **Managed Grazing Across All Scales**
Discover how producers across VA are successfully implementing managed grazing using simple tools, practical steps, and flexible approaches that work on any size operation
- 4/21** **Small Steps Towards Managed Grazing**
Learn how to confidently balance forage supply and livestock demand using adaptable stocking strategies that help you make the most of your land's potential
- 4/28** **The Biology Behind Managed Grazing**
Learn how to use the biology of plants and livestock to make your grazing system work for you
- 5/5** **Optimizing Grazing with Strip Grazing and Daily Rotations**
Explore the techniques, planning tools, and hands-on methods behind effective strip grazing to boost forage utilization and simplify day-to-day grazing management
